## **SIGN UP NOW FOR THIS EXCITING EDUCATIONAL EVENT!**

CAP PC (Child and Adolescent Psychiatry for Primary Care) is a collaboration between the child psychiatry divisions at the University at Buffalo, Columbia University, North Shore University/LIJ, University of Rochester, and SUNY Upstate. The Mini-Fellowship Program offers:

- **Up to 28 hours of CME in assessing and managing common mental health problems in children and adolescents**
- **At no charge to PCPs**
- **16 hours of education over 3 day training**
- **Follow up for 6 months with biweekly case based conference calls**

CAP PC provides education and phone consultation in child mental health for primary care providers across New York State and has been developed in partnership with:

**NYS AAP District II**

**NYS AAFP**

Funded by the NYS Office of Mental Health
