American Academy
of Pediatrics

DEDICATED TO THE HEALTH OF ALL CHILDREN™

1

CHALLENGE:

Having an up to date Medical and Immunization Record for each child in a community based early learning program

2

SOLUTION:

Pediatricians can print out an up to date computerized Immunization Record from NYSIS or CIR (for NYC) and that print out is now acceptable documentation.

3

HOW:

Through conversations with the American Academy of Pediatrics, the Early Care & Learning Council, the Department of Health and the Office of Children and Families working on solutions that will be good for our communities.

Many thanks to Elie Ward, Director of Policy & Advocacy, American Academy of Pediatrics, District II, NYS, Executive Director, NY Chapters 2 & 3 for working on this with our agencies.
